

Dear Members of the Federal Communication Committee,

I am asking for you to consider changing regulation MB Docket No. 10-238 so Southwest Colorado can gain access to news from Denver, our state capitol, instead of Albuquerque, New Mexico.

After our last state election, I felt bombarded by political ads but very well informed on how to vote. Unfortunately, I was informed on how to vote in New Mexico, not Colorado. It only makes sense for our “orphan community” to be adopted by our true parent. Please, help remedy this problem. I do not travel to New Mexico to buy essentials. I travel seven hours up to the Denver area and would like to be able to familiar with products those local businesses offer. We are part of Colorado culturally, economically and politically. Let’s allow us to get Denver television in our homes!

Thank you for your consideration,
Kim Rabick
